OBJECTIVE

Seeking an entry-level role in game or software development with experience in C#, Unity, and object-oriented programming.

EDUCATION

Rochester Institute of Technology (RIT), Rochester, NY August 2022 - May 2026
Bachelor of Science, Game Design and Development **GPA: 3.70**
Dean's List: Fall 2022, Spring 2023, Fall 2023, Spring 2024, Fall 2024, Fall 2025

Queensborough Community College (QCC), Bayside, NY August 2021 - May 2022
Computer Science Coursework **GPA: 3.95**
Dean's List: Fall 2021, Spring 2022

SKILLS

Languages: C#, C++, JavaScript, HTML/CSS, HLSL

Web: React, Vite, Tailwind CSS, Responsive UI, API Integration

Game/Graphics: Unity, Direct3D11, Gameplay Programming, AI, State Machines, UI/UX

Tools: Git, GitHub, Visual Studio, VS Code, Arduino

PROJECT

Enter the Gungeon Mod — Mouse Only Mod January 2025 - May 2025

- Implemented a mouse-only control system in C# by overriding Unity's default player input.
- Developed rule-based AI and dual-mode movement logic to automate navigation and dodging.
- Modified existing game systems using ETGMod to integrate custom input, movement, and animation behavior.

Unity Team Project — Hyperdeath Robotika January 2024 - May 2024

- Developed a top-down shooter in Unity using C# as part of a 5-person team.
- Implemented core gameplay systems, including game loop, character stats, and camera movement.
- Designed and implemented UI and HUD systems for gameplay and menus.

Terraria Mod — The Good, The Bad, and The Intoxicated August 2025 - December 2025

- Developed a Terraria mod in C# with tModLoader in a team of 5, creating custom enemies and bosses.
- Designed state-machine-based AI for NPCs and bosses, including attack logic and animation control.
- Implemented gameplay features including projectiles, collision, and physics using the Terraria/XNA framework.

WORK EXPERIENCE

RIT Dining Services September 2025 - December 2025
Student Employee Rochester, NY

- Prepared food and restocked supplies in a fast-paced dining environment.
- Maintained cleanliness of dining areas and ensured food safety through temperature checks.
- Trained new employees and assisted multiple stations to support daily operations.
- Supported event setup, cleanup, and shift coverage when needed.
